

# CHAPS & MORE

your partner for knee and wetness protection

**Chaps – the perfect protection for your knees and legs !**

## Wetness protection

✓ absolutely waterproof

**Model 13.001 (green) + 13.000 (grey) + 13.003 (orange)**  
(registered patent)

Chaps provide perfect protection when working with electric trimmers or liquids. Without knee pad, open at the back. Fixed with snap fasteners. Protects against loose stones and chippings. Model 13.003 in warning colour to DIN EN 471, with velcro fasteners.

**Model 13.021 (green)**

In green with additional foot protection.

**Model 13.051 (short, green) + 13.061 (long, green)**

Wetness protection around the leg when coming into contact with wet cultures, e.g. tree nurseries, forestry, agriculture, hunting, vegetable gardening etc. Water, tear and thornproof, fastens around the leg with velcro on the sides. Available in 2 different lengths.

**Model 13.080 (grey)**

Spray protection, to step into with hemline slits

**Model 18.050 (grey)**

Gaiters to protect lower legs against wetness and snow. An elasticband underneath the shoe and velcro fasteners at the side ensure a tight fit and keep your trousers dry.

## Knee protection

✓ with knee pad

✓ extremely durable

✓ no discomfort

in the back of the knee

✓ absolutely waterproof

Model 13.003

Model 13.051 + 13.061

## Knee protectors

**Model 70.010 Gel**

Very comfortable fit because of an gel and EVA foam cushion. One elastic neoprene strap and one elastic strap - which is optionally removable - allow freedom of movement and maximum comfort. Suitable for every kind of surface because of the smooth and robust plastic cap

**New**

Model 70.010

Model 70.001 - 70.004

## Our high quality knee protectors

Comfortable cushion, excellent impact deflection and ergonomic shape allowing freedom of movement – you'll hardly know you've got them on. Waterproof and washable at 30° C. Available in 3 different styles.

**Model 70.001**

Non slideable polyurethane cover. Recommended for: floor and roof tilers, mechanics, construction workers, gardeners, screed levelling.

**Model 70.003**

Slideable Kevlar material. Recommended for: floor layers and carpet fitters.

**Model 70.004**

Non slideable, abrasionproof Kevlar cover. Recommended for: pavement layers, metal workers and civil engineering.

**Model 70.200 Gel**

Useable for every area. The very robust plastic cap can be taken off by means of velcro fastenings. The gel cushion with integrated aerial cells and additional EVA padding guarantees maximum comfort. Breathable inner lining reduces sweating. Fastened by one elastic neoprene strap with an adjustable velcro fastening, which is right below the knee. No constriction in the knees!

Model 70.200

**Model 70.100**

Knee pads with comfortable foamed plastic upholstery inside with robust and durable plastic caps. Breathable inner lining which reduces sweating. Fastening same as Model 70.200

Model 70.100

Model 12.051

Model 12.051

Model 12.051

Model 12.070 + 12.071

**Model 12.051 (green)**

For garden work. Open at the back, with velcro fasteners and knee pad 10.000. Can also be used with knee pad 10.050.

**Model 12.070 (grey) + 12.071 (green) + 12.073 (orange)**

For pavement work. Open at the back, with snap fasteners and knee pad 10.050. Model 12.073 in warning colour to DIN EN 471.

## Knee pad

Model 10.000, EVA  
250 × 155 × 20 mm
